

Term 3

Homework Project

This term our theme is 'A Trip to the Tropics' we will be looking at the rainforests of the world.

Your homework task this term is to research a rainforest animal or a particular rainforest such as The Amazon.

You will need to either:

- Research your animal in detail (consider the animals habitat, diet appearance and special features).
- Research a particular rainforest in detail (consider the rainforest locality, vegetation and plant life and animal inhabitants).

You may focus more heavily on some aspects of the project more than others, for example, if you would like to showcase your literacy skills, you may write a detailed fact file. If you would like to showcase your creative skills, you may want to make a 3D model of your chosen animal or diorama of your rainforest, or even draw a detailed diagram of it. It is up to you how you would like to present your ideas, or how far you take your project.

You could use the internet for research, watch documentaries, or take a trip to the local Library to find out more information to assist you with your project.

You will be awarded a green, silver or gold rating for your project which will reflect the effort put in to your work, the detail included, the accuracy of your research and the overall presentation of your assignment.

If you have any questions about this project, please speak to your class teacher.

Due date: Friday 2nd February
